

Create a Government Advertising Poster

Each person is to create an advertising poster which will be used to encourage people to become citizens of your country.

Think of posters you see around town, or in the newspaper, or on the internet or commercials on t.v. You want to grab the viewers' attention and make them want to read more about your product. You also want to have a memorable phrase that will stay with people after they finish reading the poster.

Posters must be colorful, truthful, and contain a catchy slogan to represent your country.

- 1. Get your sketches and a piece of construction paper from Ms. Scott.**
- 2. Sketch out your ideas in pencil (be sure to fill the entire paper). Be sure to use a combination of pictures and words.**
- 3. Color your poster.**
- 4. Put your name, date, period on the back of your poster.**
